

Letter to Your Friend Telling/Describing Him Experience of Your Online Classes

[Friend Full Address]_____,

[City, Pin]_____,

Date on Letter: _____

Dear friend [Your Friend Name Here],

I hope you are well, as you know these days schools and colleges are closed everywhere due to pandemics, so schools and colleges have arranged online classes for their students so that students do not have trouble with their studies. This is a totally different experience for me, I am regularly taking my online classes on time. The most important thing is that in this also the timetable of every class has been kept as a school.

I wake up comfortably in the morning because my class time is from 12 o'clock so I finish my homework in 2 hours and then do my online class comfortably from 12 o'clock to 3 o'clock. Meanwhile, after every class, I also get a break of 10 minutes. Sometimes I also get bored because of all these routine activities, so in my spare time I play sports, watch television, cook some food items, it's good for me if you watch it all together. Most important and blessed are our teachers who teach us through their hard work.

Many times while doing online classes, we have to face the problem which is due to network or technical problems. This is a new experience for me that is happening during this pandemic. All my exams through online classes are done on the basis of MCQ, which is very easy as well as saves time. I hope you understand my experience of an online class in the time of pandemics. Please let me know how you feel about your pandemic days' in a letter. Pleasure my dearest regards to parents and love to little sister & brother.
